

BRANDING OF VEHICLE SCOPE OF WORK

General:

The purpose of this contract is to supply Eskom Rotek Industries (ERI) with various Vehicle Branding Stickers for different vehicle categories on an ad hoc basis for a period of Five (5) years.

The supplier will be requested to install and de-install the decals as and when is required at Eskom Rotek Industries Offices.

The supplier shall provide the ready to stick vehicle branding not limited to the below vehicle categories: Hatchbacks and Sedans; Light Delivery Vehicles (LDV's); Trucks; Trailers and Busses of different body types as specified in the ERI vehicle categorisation.

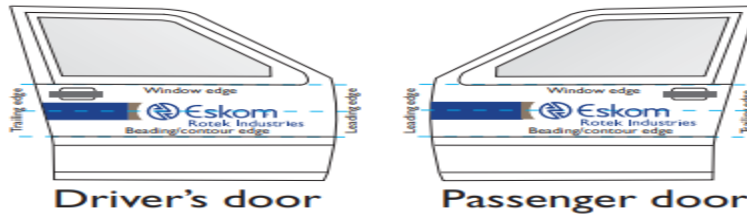

The vehicles specification is as stated below:

1. The tenderer shall only supply the decals/stickers only upon request.
2. The supplier shall ensure compliance to Eskom Rotek Industries Decals Specification terms as provided on the Scope of work.
3. The dimension of the small vehicles decal sizes are **105mm height and 290mm length.**
4. The dimension of the Construction vehicles decal sizes are **300mm height and 828.5mm length.**
5. The emergency number must be lime green and should be on a size of a number plate.
6. The vehicle related incident decals should be on a size of a number plate and align with the company colours
7. Vehicles that have been specific colour coded for safety identification purpose (Fire engines, ambulances, Forklifts, etc.) must remain in their specific identification colours.
8. The corporate signature must then be applied in white.
9. Sub-brands e.g. Isuzu frontier, must be removed from the side do panel as no vehicle manufacture's brand may dominate the Eskom signature (*Upon instructions from ERI*).
10. The identity application must always be applied on the top half of the door. If the are encountered with the positioning of the decal, please consult Fleet Management.
