Fixed ZAR Option (Payment Method 3)

This option is available to those tenderers who are the direct importers of the goods/services for which they have tendered, but do not find Payment Methods 1A, 1B or 2 and allows tenderers to be responsible for the foreign currency and exchange rate risk. If a tenderer selects this payment method, the process is as follows:

- Eskom and the successful tender will engage, on a simultaneous basis, with their respective bankers and compare the exchange rate/s obtained. This is done to ensure that any exchange rate/s used is/are market related.
- Tenderers will be required to match or better the exchange rate/s obtained by Eskom. If the tenderer's exchange rate/s is/are more expensive than the exchange rate/s indicated by Eskom, the exchange rate/s to convert the foreign values into ZAR will be the Eskom exchange rate/s.
- Once the exchange rate/s has/have been agreed by both parties, Eskom will not be liable for any further exchange rate adjustments.

From a Commercial perspective, please take note of the following:

- The foreign currency and foreign currency amount/s that Eskom is/are at risk to, need/s to be indicated in the pricing schedule submitted as part of the tender. If the pricing schedule does not allow for it, the foreign currency and foreign currency amount/s must be indicated in a covering letter.
- The exchange rate to be used in the tender submission is the exchange rate sourced from the South African Reserve Bank on the date the tender is advertised/published.
- Due to the payments being made in ZAR, but based on an agreed exchange rate, the tenderer will be required to submit proof of importation at time of payment.

Where the supplier, previously imported goods into stock for delivery to various customers, including Eskom, the price quoted must be in South African Rand. In such cases, Eskom will not undertake any foreign exchange commitment or arrange forward cover.

Take note of the following:

Service-related payment:

When specialist skills are required in South Africa, the local supplier will source the appropriate talent from their network of specialist companies overseas. The specialist is then brought into the country (South Africa) on one of two possible methodologies.

1) Secondment

In this approach, the foreign specialist retains their employment contract with their home unit (Employer overseas) but are seconded to the local company that has a contract with Eskom to work under the direction and control of the local management. Their salaries are paid to the foreign specialist by their home country and that foreign entity then invoices the local supplier (South Africa) in foreign currency for the cost relating to such employees. The invoices would typically be in Euro or GBP, this methodology is usually for short to medium term engagements.

Documents to be attached for payment:

- Commercial invoice from the specialist company

Where:

x is the imported content in Rand
