GROUP PROPERTY DEPARTMENT

RE-ADVERTISEMENT: APPOINTMENT OF A SERVICE PROVIDER FOR THE PROVISION OF PROFESSIONAL ENGINEERING SERVICES IN RESPONSE AND COMPLIANCE WITH THE TOWN PLANNING SUBDIVISION APPLICATION PROCESSES ON COUNCIL-OWNED PROPERTIES

BID NUMBER

(Q30-01-2026-27)

1. INTRODUCTION AND PURPOSE

Group Property requires the services of suitably qualified and experienced Professional Engineering Service Providers to be appointed for the purpose of unlocking stalled town-planning processes that require critical technical reports such as Civil Services Reports, Geological Reports and Route Determination Reports, as advised by the Approving Authority.

The objective of this tender is to execute the delivery of the following technical and specialist reports for the lodged Town Planning Subdivision applications, and ensure that all the requirements of the Approving Authority are dealt with and supported:

- To investigate and assess existing civil infrastructure (roads, stormwater, services) on Council-owned properties and provide recommendations for upgrades, repairs, or decommissioning;
- To conduct feasibility assessments, infrastructure design, and geotechnical investigations
- To provide engineering inputs, designs, and reports to ensure properties comply with relevant municipal by-laws, SANS standards, and health and safety regulations.

2. BACKGROUND

During the period between 2013 and 2016 the City of Tshwane Council approved the donation of properties to religious organisations across all seven regions of the city due to the high volume of applications that were being received.

The properties donated varied in nature of location, size and zoning classifications, as well as the allocation thereof wherein some transactions required only a portion of the property and in some instances more than one beneficiary is allocated on a designated property, this therefore necessitated the implementation of town planning processes in order to subdivide the properties into the appropriate required sizes to enable the transfer of the properties to the rightful beneficiaries.

The department has since appointed a service provider for the provision of town planning services in order to lodge subdivision applications as recommended and required by the Council resolution. The subdivision process has unfortunately encountered delays on a number of the submitted applications due to unforeseen additional requirements made by the city's service departments. As per hereunder summary of technical and specialist studies required by the service departments, refer to "Annexure A" for the received departmental comments:

The City of Tshwane seeks to appoint a Professional Engineering Service Provider that can demonstrate the capacity to deliver the required services. The Service Provider may submit a proposal as:

- A single entity with a team of professionally registered engineers possessing the required expertise across all three service categories; OR
- A consortium or joint venture of professionally registered engineers collectively possessing the required expertise across all three service categories.

The Service Provider must demonstrate that the professional team has the appropriate expertise to deliver each of the required reports as specified below:

Service Required	**Team Member (Professional)**	**Required Professional Registration**	**Registration Body**
Route Determination Report	Professional Transportation / Civil Engineer	Professional Engineer (Pr Eng)	Engineering Council of South Africa (ECSA)
Geotechnical Report	Professional Geotechnical Engineer	Professional Engineer (Pr Eng)	Engineering Council of South Africa (ECSA)
Civil Services Report	Professional Civil Engineer	Professional Engineer (Pr Eng)	Engineering Council of South Africa (ECSA)

- Analyse field and laboratory data to assess site suitability for proposed developments.
- Provide geotechnical design parameters for foundations, earthworks, and slope stability.
- Identify constraints (dolomitic stability, shallow bedrock, collapsible soils, high water table) and propose engineering mitigation measures.
- Compile comprehensive Geological/Geotechnical Reports compliant with SANS 634, City of Tshwane, and Council for Geoscience requirements.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Municipal Bidding Document (MBD) must form part of all bids[1] invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).[2] Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:

a. take all reasonable steps to prevent such abuse;

b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and

c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

[1] Includes price quotations, advertised competitive bids, limited bids and proposals.

[2] Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
