Contractors should note that the order(s) will be placed as and when required during the contract period and delivery points will be specified by the South African Police Service.

The instructions appearing on the official order form regarding the supply, dispatch and submission of invoices must be strictly adhered to and under no circumstances should the contractor deviate from the orders issued.

The South African Police Service may request that a contractor to submit a sample for approval before mass production related to that order is finalised. The cost of this sample is for the contractor.

The South African Police Service is under no obligation to accept any quantity which is in excess of the ordered quantity.

Furthermore, contractors are to take note that the price of the new brand should not be higher from the current contract price of the original product.

Contractors are not allowed to deliver a new brand other than the brand awarded to them prior to an approval of brand change from SAPS.

16.7 CONTRACT PRICE ADJUSTMENT

16.7.1 Formula

Prices submitted for this bid will be regarded as non-firm and subject to adjustment(s) in terms of the following formula, defined areas of cost and defined periods of time.

Applications for price adjustments must be accompanied by documentary evidence in support of any adjustment claim.

The following price adjustment formula will be applicable for calculating contract price adjustments (CPA).

$Pa = (1-V) Pt \left(D1 \frac{R1t}{R1o} + D2 \frac{R2t}{R2o} + D3 \frac{R3t}{R3o} + Dn \frac{Rnt}{Rno} + VP1 \right)$		
Pa	=	The new adjusted price to be calculated
V	=	Fixed portion of the bid price (15% or 0.15)
Pt	=	Original bid price. Note that Pt must always be the original bid price and not an adjusted price
(1-V)Pt	=	Adjustable portion of the bid price (85% or 0.85).
D1 – Dn	=	= Each factor (or percentage) of the bid price, e.g., material, labour, transport, overheads, etc. The total of the various factors (or percentages) D1 – Dn must add up to 1 (or 100%).
R1t – Rnt	=	= End Index. Index figure obtained from the index at the end of each adjustment period
R1o–Rno	=	Base Index. Index figure at the time of bidding.
VPt	=	15% (or 0.15) of the original bid price. This portion of the bid price remains fixed, i.e. it is not subject to price adjustment.

16.8 FORMULA COMPONENT DEFINITIONS

16.8.1 Adjustable amount

The adjustable amount is the portion of the bid price which is subject to adjustment. In this bid the adjustable amount is 85% of the original bid price. For example, if the bid price is R1000, then only R850 will be subject to adjustment.

16.8.2 Fixed portion

The fixed portion represents those costs which will not change over the adjustment period and **DOES NOT** represent the profit margin. In this bid the fixed portion is 15% of the original bid price. Using the same example as above, it would amount to R150 which will remain fixed over the contract period.

**16.8.3 Cost components and proportions**

- a) The cost components of the contract price usually constitute the cost of materials (raw material or finished product), cost of direct labour, cost of transport and those other costs which are inclined to change. The proportions are the contribution to the contract price of each of these cost components. In this bid the following cost components will be used to calculate contract price adjustments.
- b) Bidders are requested to submit the cost breakdown of the bid price for each item with their bid. Should the cost breakdown be the same for all items on the bid, please indicate it clearly in the bid document. Successful bidders will not be allowed to change the cost breakdown of bid prices during the tenure of the contract.
- c) In a case where the same cost components are applicable to all items offered please fill out the Cost components document attached with the bid other than that cost components must be indicated on each line item when finalising pricing schedule.

Cost Component		% Contribution
D1- Imported Raw Material / Finished product (if applicable)		
D2 - Local Raw Material / Finished product (if applicable)		
D3 - Labour		
D4 - Transport		
D5 – Housing and utilities		
D6 – Other		
TOTAL (Cost components must add up to 100%)		100 %

16.8.4 Applicable indices / references

The applicable index refers to the relevant market index, which is a true reflection of price movement(s) in the cost over time. In this bid the following indices or reference will be applicable:

Cost component	Index Publication	Index Reference
D1 – Imported Raw Material / Finished product (if applicable)	Supplier / Manufacturer invoice(s) and remittance	Documentary evidence to accompany claim.
D2 - Local Raw Material / Finished product (if applicable)	STATS SA P0142.1 (PPI) Table 1	Textiles, clothing and footwear– Clothing OR Documentary evidence to accompany claim
D3 - Labour	STATS SA P0141 (CPI), Table E OR Labour agreement ²	Table E - All Items OR Labour agreement to be provided
D4 – Transport	STATS SA P0141 (CPI) Table E	Table E - Transport – Other Running Cost
D5 – Housing and utilities	STATS SA P0141 (CPI) Table E	Table E – Housing and utilities Headline
D6 – other	Specify	Documentary evidence to accompany application

16.8.5 Base Index Date

The base index date applicable to the formula is defined as the date at which the price adjustment starts. In this bid the base index date

16.8.6 End Index Date

The end index dates are the dates at predetermined points in time during the contract period. In this bid the end indices are defined in the next paragraph (Price Adjustment Periods).

16.8.7 Price Adjustment Periods

Adjustment to contract prices must be applied for at the following dates:

Adjustment	CPA application to reach the office at the following dates	End Index Date	Dates from which adjusted prices will become effective

1 st Adjustment	After One year of signing the contract		Date of application of adjustment after approval was obtained
----------------------------	--	--	---

* In cases where invoices are supplied as documentary evidence, it is advised that invoices closest to the Base Index date and the End Index date be submitted. It should ideally reflect the adjustment period.

* In the absence of a labour agreement, the labour cost component will be adjusted with CPI Headline inflation.

16.9 RATES OF EXCHANGE (ROE) – BASE AND AVERAGE RATES

In the event where material and/or finished products are imported the following will apply:

The formula described above will be used and the imported cost component of the bid price (D1) will be adjusted taking into account the base RoE rate.

In the event where the RoE adjustment goes hand in hand with a material/product price increase, the material/product price (in foreign currency) will be converted to South African currency using the base rate.

The imported cost component (D1) will be adjusted together with all the other cost components Rate(s) of exchange to be used in this bid in the conversion of the bid price of the item(s) to South African currency is indicated in the table below.

17. GENERAL

Unless prior approval has been obtained from SAPS Contract Management, no adjustment in contract prices will be made.

Applications for price adjustment must be accompanied by documentary evidence in support of any adjustment.

CPA applications will be applied strictly according to the specified formula and parameters above as well as the cost breakdown supplied by bidders in their bid documents.

In the event where the supplier's CPA application, based on the above formula and parameters, differs from Contract Management SAPS verification, Contract Management SAPS will consult with the supplier to resolve the differences. The South African Police Service reserves the right to negotiate amended contract prices at any stage prior to the final notification to end users.

18. BREACH OF CONTRACT

The South African Police Service reserves the right to terminate the contract(s) if the contractor does not honour contract(s) obligations including submission of information.

19. PACKAGING

Goods supplied must be packed in suitable packaging before distribution to the end users.
