D. SPECIFICATION & EVALUATION CRITERIA

SECTION 2: BACKGROUND INFORMATION

King Sabata Dalindyebo Municipality is one of the biggest rural Municipalities in the Province of Eastern Cape being a Category B Municipality in the O.R. Tambo District. King Sabata Dalindyebo Municipality is experiencing inward migration where people move away from the villages to Mthatha and Mqanduli town areas.

The movement of people can be attributed to several factors, with main factors such as to look for work opportunities and to enjoy better services offered in townships as opposed to the ones offered in the villages to mention but a few reasons. Formalisation of the rural Mthatha and Mqanduli would however bring new opportunities to residents as it would allow them to have security of tenure, that which they could use as collateral when acquiring money from the financial institutions to better their livelihoods. This has resulted to several people moving away from the villages to the townships and towns areas for better developed sites and to seek better job opportunities. Due to this movement, there has been an increase in the number of informal settlements within King Sabata Dalindyebo municipal urban areas, especially in Mthatha.

There are also a lot of backyard dwellings specially in Mthatha and Mqanduli and this has put a tremendous burden on the services as they are now providing for more households than planned for and the services cannot cope with the load.

The above reasons have therefore prompted the Municipality to think far ahead and envisage the Municipality that will be able to provide for its people in terms of land as a fundamental right and improved transport networks that responds to the economic opportunities that are available in the area. This has therefore led to the appointment of turnkey developers on a risk basis for the development of the Mega City project within King Sabata Dalindyebo Municipality. The aim is to bring the towns of the municipality closer to each other, Mthatha and Mqanduli. CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
