5.	I have downloaded the most recent questions and answers document that includes the pictures of the baskets that we must supply. The picture shows us how the filters are installed in the basket, but we don't have an actual view of the basket, strainer without the filters. In order to manufacture the basket according to	We cannot give another manufacturers specifications (3D drawings or measurements) to another client. I would assume it to be proprietary information. Also note that an equivalency route would need to be followed if the organisation is to buy filters made by another supplier. Please see the following equivalency EQUIVALENT M032/96E: ALTERNATIVE NUCLEAR ISLAND LIQUID FILTER CARTRIDGE for what is currently acceptable.	09/12/2024

a specification, we will need technical drawings that illustrates the size and position of each component of the basket. The URS only gives us three dimensions of one component of the basket which is not sufficient to manufacture accurately. We cannot see the design of the base plate, the top end cap and what

	the clamping mechanism.		
6.	I recognized all articles at the exception of the followings for which I have a doubt : Material 0050515 , can you check if they require a stainless steel basket	this is a cartridge that goes into RCV003/4FI. It does not need a basket.	20/01/2025
	Material 0593008 , they talk about Polyamid in description and Polyaramid in the long description :- not really the same material !!!	It needs to be polyaramid.
