BID CLARIFICATION

NO	QUESTIONS:	ANSWERS:
1	Enquiry 1 (07/10/2024) Civil Engineering requirement is usually for construction, should we still have it even for this project?	Response The requirement is due to the nature of the work required for this specific project. The requirement being on a functionality scale, the bidder will not necessarily be disqualified should they not have the satisfactory level for the project manager, it simply means that less points will be allocated for the affected key personnel.
2	Enquiry 2 (07/10/2024) The gate at the entrance says 50 meters, is it correct?	Response The dimensions on item 13 could be an error, however this will be verified during the site visit and if it is incorrect an addendum will be issued to all prospective bidders who attended the clarification meeting.

3	Enquiry 3 (07/10/2024) How do we submit on SSS?	Response Once the full tender response has been compiled, please scan it in PDF and log onto the Supplier Self-service portal where you click on this enquiry number /tender number and follow the prompts and upload that scanned document. Should you not be registered on the SSS system please contact the email / number on the document for SSS registration queries.
4	Enquiry 4 (07/10/2024) Who will be signing the clarification meeting attendance confirmation on the document?	Response Some bidders do not have their tender documents with them today, therefore for uniformity we will use the clarification meeting register to confirm whether the respondent attended the clarification meeting.
5	Enquiry 5 (24/10/2024) What are the expectations of the client, do they want to match the fence exactly, then it takes away competitiveness of the tender process?	Response Though the response need not match the fence exactly to the old fencing, all supplied materials must be compatible with the equipment / materials on site that will be refurbished and reused.
6	Enquiry 6 (24/10/2024) All the gates on site are in bad shape and need replacing.	Response Bidders are advised that they should only bid for the requirement as advertised or issued addenda.
