Eskom Holdings SOC Ltd ("Eskom") invites you to submit an:

- **Request for Information (RFI)** to obtain information for the works, goods, and services described in the table above. This RFI is a stand-alone information-gathering and market-testing exercise intended to support Eskom's further deliberations and the development of an Expression of Interest (EOI) for suppliers with the capability to supply and install a new gas monitoring system. Eskom requests indicative pricing as part of this RFI. Eskom may proceed with a closed tendering process after this RFI, limited to suppliers that have responded.

Eskom has delegated the responsibility for this **RFI** to the signatory of this document, whose details can be found below.

We look forward to receipt of your response.

Yours faithfully

| 2   | Provide your company profile, including relevant experience in the design, supply, installation, testing, and commissioning of gas monitoring or gas detection systems.                                                        |                                              |
| 3   | Confirm whether your proposed solution can monitor oxygen levels and gas supply pressure across 14 laboratory areas located on the Ground Floor West, Ground Floor East, and First Floor.                                      |                                              |
| 4   | Indicate whether your system can include oxygen detectors, gas pressure transmitters, a control panel with audible and visual alarms, battery backup, remote monitoring, and a central status display.                         |                                              |
| 5   | Confirm whether your proposed pressure monitoring solution can accommodate Argon, Helium, Hydrogen, Nitrogen, Mixed Gas, Synthetic Air, Medical Oxygen, LPG, and P10, with an operating range of 0–250 bar and 4–20 mA output. |                                              |
| 6   | Provide indicative pricing for the complete solution, including design, supply, delivery, installation, testing, commissioning, training, software/licensing, and any proposed support or maintenance requirements.            |                                              |
| 7   | State the estimated lead time from purchase order placement to final commissioning and handover of the operational system.                                                                                                     |                                              |
| 8   | Confirm whether your proposed system is expandable for future laboratory zones and provide details of any expansion limitations or additional infrastructure requirements.                                                     |                                              |

Yours faithfully
