This will significantly reduce the administrative burden for businesses, especially small and medium sized enterprises. The database interfaces with the South African Revenue Service (SARS), the Companies and Intellectual Property Commission (CIPC) and the payroll system. It will electronically verify a supplier's tax status and enable public sector officials doing business with the state to be identified.

All prospective suppliers can register any time on the CSD website www.csd.gov.za. Prospective suppliers may also visit the Provincial Treasury Database office situated at Treasury House, Ground Floor, 145 Chief Albert Luthuli Road, Pietermaritzburg, from 08h00 to 15h00, Mondays to Fridays, for any assistance with on-line registration on CSD.

CONTRACT No. SCM 29 OF 25/26

APPOINTMENT OF A PROFESSIONAL TEAM TO UNDERTAKE A PRECINCT MANAGEMENT PLAN FOR THE CBD CHURCH STREET UPGRADE PROJECT

SPECIFICATION

1.0 SCOPE OF CONTRACT

The scope of contract calls for the appointment of a suitably qualified and experienced Professional Team to undertake a detailed Precinct Management Plan for the CBD Church Street Upgrade Project.

2.0 BACKGROUND

- 2.1 In most South African towns and cities, the central business districts (CBDs) have declined due to loss of buying power to suburban developments. One negative effect has been lower levels of investment into CBDs.
- 2.2 Msunduzi's CBD, like towns and cities across South Africa has faced considerable upheaval in the past few decades. The pace and scale of urbanization and changes in economic processes have contributed to the process of continuous flux and economic decline. Whilst it is true that many traditional activities that historically have supported CBDs have been dispersed to the urban periphery or beyond, the CBD continues to play a crucial role in the cities' ability to function and in securing identity in the face of disintegrating urban contexts.
- 2.3 There are various challenges experienced in the Pietermaritzburg CBD which will have to be addressed to bring about change and stimulate the local economy to such a degree to attract investment. The decline in private investment, ageing infrastructure, and urban decay has threatened the functionality of the CBD. While the increase in crime and lack of infrastructure and services have resulted in many businesses relocate to other nodes and suburbs.
- 2.4 National Treasury has identified the Upgrade of Church Street situated within the Pietermaritzburg Central Business District [CBD Anchor Node] as critical project to advance the city urban renewal and regeneration agenda. Church Street which forms part of Msunduzi's main transit spine was identified as a desirable location for such a development initiative.
- 2.5 Church Street is one of the major streets in the Pietermaritzburg CBD that forms part of the primary transportation network system (i.e. an element of UNS Model) and the Integrated Public Transport Network (IPTN) that connects the Edendale Township Area via Selby Msimang Road (Former Edendale Road) and Raisethorpe Township Area via Chota Motala Road (former Old Greytown Road).
- 2.6 The Church Street upgrade projects is aimed at revitalising and regenerating the CBD hence, a critical project being the Church Street Upgrade is the subject of this Action and Work Programme. This project is expected to drastically transform the Municipality, bringing a range of transportation, land use and increased densification opportunities, thus becoming a major structuring device in Msunduzi Municipality.
- 2.7 However, before the Church Street upgrade implementation can be funded, it is vital that a precinct management plan and urban design concepts be developed to guide and drive the redevelopment and regeneration of Church Street as the spine of the city.

- 2.8 Precinct management consists of strategic and operational planning and management. Despite the presence of precinct plans and even economic tools and incentives, or public investments, a precinct may still fail to develop into a thriving urban space. Precinct management is required to provide an immediate and on-going improvement in the environment, to instil private sector investment confidence, investment retention, risk management and to identify what is needed to make these spaces successful on a day-to-day basis. Precinct management is primarily concerned with a variety of factors impacting on public space, i.e. the physical infrastructure; the resources (both financial and human) required to undertake this management, and the on-going, dynamic relationships between the different users of the precinct.
- 2.9 A Precinct Management Plan is a tool to optimise the use of existing resources and manage/maintain and improve key activities and priorities within a delineated area to ensure value for money and long-term sustainable impact.

Church Street performs a significant role in the function of the identified Integration zone and the efficient functioning of the city itself.

The role that Church Street performs in the movement of pedestrian, vehicles and goods contribute heavily on economic output of the city. The heavy foot traffic that Church Street experiences is further exacerbated by the location of civic centre which contains the government administration offices, retail and commercial facilities and multiple transport facilities.

DATA SHEET 6: CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibited meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
