1. PURPOSE

- 1.1. To appoint a professional service provider for a period of twelve (12) months to undertake a detailed costing of the implementation of the National Waste Management Strategy (NWMS) and to develop a comprehensive Resource Mobilisation plan to support effective implementation of the NWMS.
- 1.2. The project is to support the Department in assessing the full financial implications of implementing the NWMS and in mobilising sustainable financial and other resources from government, private sector, development finance institutions, and other potential partners.

2. INTRODUCTION AND BACKGROUND

- 2.1 The National Environmental Management: Waste Act 2008 (Act no. 59 of 2008, as amended) (hereafter referred to as the “Waste Act”) was promulgated and came into effect in 2009.
- 2.2 The NWMS provides the overarching policy framework for integrated waste management and is binding on all organs of state. The reviewed NWMS will guide implementation for the period post 2026 and requires a credible costing and sustainable financing framework to enable effective execution.
- 2.3 The objects of the Waste Act are to protect health, well-being and the environment, ensuring that people are aware of the impact of waste on their health, well-being and the environment.
- 2.4 Reasonable measures for the protection of health, well-being and the environment will lead to —
 - (i) Minimising the consumption of natural resources;
 - (ii) Avoiding and minimising the generation of waste;
 - (iii) Reducing, re-using, recycling and recovering waste;
 - (iv) Treating and safely disposing of waste as a last resort;
 - (v) Preventing pollution and ecological degradation;
 - (vi) Securing ecologically sustainable development while promoting justifiable economic and social development;
 - (vii) Promoting and ensuring the effective delivery of waste services;
 - (viii) Remediating land where contamination presents, or may present, a significant risk of harm to health or the environment: and
 - (ix) Achieving integrated waste management reporting and planning;
 - (x) To ensure that people are aware of the impact of waste on their health, well-being and the environment;
 - (xi) To provide for compliance with the measures
- 2.5 The Waste Act advocates for citizens to minimise the generation of waste and therefore promotes the principles of the Waste Management Hierarchy.

- 2.6 Section 6 (1) of the Waste Act states that “the Minister must, within two years of the date on which this section takes effect, by notice in the Gazette establish a National Waste Management Strategy (NWMS) for achieving the objects of this Act”. The Waste Act further require the strategy to be reviewed at an interval of five years or when the minister deems fit.
- 2.7 Section 6 (3) of the Waste Act states that “the NWMS binds all organs of state in all spheres of government, and all persons if and to the extent applicable”.
- 2.8 The NWMS provides government policy and strategic interventions for the waste sector and is aligned and responsive to the Sustainable Development Goals (SDGs) of Agenda 2030 adopted by all United Nations (UN) member States.
- 2.9 It is also aligned and responsive to South Africa’s National Development Plan (NDP): Vision 2030, which is our country’s specific response to, and integration of the SDGs into our overall socio-economic development plans, zero waste to landfills; cleaner communities, well-managed and financially stable waste services, and a culture of zero tolerance of pollution, litter and illegal dumping.
- 2.10 The purpose of the NWMS is to achieve the objectives of the Waste Act as indicated in 2.2. The Department has developed two strategies in 2012 and 2021 since the coming into effect of NEMWA. The NWMS 2020 had three strategic pillars, namely (i) Waste Minimisation; (ii) Effective and Sustainable Waste Services; and (iii) Compliance, Enforcement and Awareness.
- 2.11 The DFFE acknowledges and appreciates partnerships established in the various and existing EPR programmes. However, the waste sector has various industries and numerous waste streams that need to be managed through sustainable partnerships to achieve effective implementation of the four pillars of the NWMS. Thus, it is for this reason that the DFFE, together with relevant strategic partners, needs to ensure sustainable funding of the implementation of the NWMS.
- 2.12 The NWMS has a five-year life span under the Waste Act, and the implementation targets for the NWMS 2020 were to be attained before 21 January 2026.
- 2.13 The aim of this project is to initiate a Resource Mobilisation campaign which will include a comprehensive study on the costing of the implementation of the reviewed and updated National Waste Management Strategy and identify interested parties willing to provide financial support towards its execution

3. OBJECTIVES

- 3.1. The objectives of the project are:
