2. OVERVIEW OF LAND BANK

Established in 1912 to promote agricultural and rural development, the Land Bank provides production, instalment sale finance, and medium-term or mortgage loans to emerging and commercial farmers. From time to time, the Bank also administers other government programmes, such as drought relief schemes and flood assistance. The Land Bank is wholly- owned by the South African government, and is in turn the sole shareholder of LBIC and LBLIC, which provide insurance products in the agricultural sector.

The Bank's objectives flow from the Land Bank Act, No. 15 of 2002, and are aligned with government policies and the country's socio-economic needs. The Bank is expected to play a pivotal role in advancing agriculture and rural development. Its broad mandate, as expressed in the Land Bank Act, covers 11 objectives:

- Equitable ownership of agricultural land, in particular increasing the ownership of agricultural land by historically disadvantaged persons
- Agrarian reform, land redistribution or development programmes aimed at historically disadvantaged persons
- Land access for agricultural purposes
- Agricultural entrepreneurship
- Removal of the legacy of racial and gender discrimination in agriculture
- Enhancing productivity, profitability, investment and innovation
- Growth of the agricultural sector and better use of land
- Environmental sustainability of land and related natural resources
- Rural development and job creation
- Commercial agriculture
- Food security

Land Bank is committed to contributing to socio-economic transformation in South Africa and will therefore be contributing to the Preference System of all suppliers who are compliant to the Broad-Based Black Economic Empowerment Act no.53 of 2003 and the Preferential Procurement Policy Framework Act no.5 of 2011.

A. TERMS OF REFERENCE FOR THE REQUEST FOR PROPOSAL (RFP): THE PROVISION OF SECURITY OPERATIONS CENTRE (SOC) SERVICES TO LAND BANK FOR A PERIOD OF FIVE (05) YEARS.

1. PURPOSE

The purpose of this RFP (Request for Proposal) is to invite suitably qualified service providers (hereinafter referred to as "bidders") to submit proposals for the provision of Security Operations Centre (SOC) services to Land Bank for a period of five (05) years.

2. BACKGROUND

The agricultural sector remains the backbone of many economies, particularly in rural regions. However, access to finance remains a key constraint. In today's competitive financial services landscape, speed, accuracy, and customer satisfaction are critical differentiators. The Land Bank has a desire to modernise their systems. The modernisation of the Land Bank is essential for the bank to meet its mandate of the supporting smallholders' farmers, promoting financial inclusion and driving agricultural transformation. By leveraging technology, the bank can align financing with the unique needs of agriculture, supporting national priorities for economic development and food security.

As the Bank continues to modernise and digitise its operations, the need for robust cybersecurity monitoring, threat detection, and incident response capabilities has become increasingly important to safeguard critical systems, sensitive information, and business operations.

3. SCOPE OF WORK

Land Bank requires a comprehensive, fully managed Security Operations Centre (SOC) service providing continuous 24x7x365 security monitoring, detection, investigation, containment support, reporting and continuous improvement across the Bank's technology environment.

The SOC service must complement and integrate with Land Bank's existing security technologies and Managed Detection and Response (MDR) capabilities. Land Bank is not seeking to replace its existing MDR or security technologies through this procurement.

The successful bidder will be responsible for providing an overarching security monitoring and response capability capable of correlating security events across the Bank's technology environment and providing a consolidated view of security threats and incidents.

The SOC must have the capability to ingest, process, analyse and retain a minimum of 70 GB of security log and event data per day, either through Land Bank's existing SIEM/security platforms and/or directly into the bidder's MANAGED SOC platform.

The current environment includes, but is not limited to:

- On-premises Active Directory integrated with Microsoft Entra ID;
- Approximately 600 Windows end-user laptops;
- Approximately 100 mostly Windows with some Linux servers;
- 3 Firewalls and 1 web application firewall;

- Routers, switches and other network infrastructure;
- Microsoft 365 and Azure cloud services; and
- Various security platforms and technologies that include / fall under the following categories:
 - Endpoint detection and response
 - Firewalls
 - VPN
 - PAM
 - IAM
 - Data leak prevention
 - Data security and analytics
 - Email security
 - Antivirus

The solution must be scalable to accommodate reasonable growth in log volumes and additional data sources during the contract period.

The following minimum service levels are required, should the bidder's response and escalation times differ please provide it:

Table 1: Response time

Severity	SOC Response Time	Escalation Time
Critical	< 1 hour	2 hours
High	< 2 hours	4 hours
Medium	< 4 hours	6 hours

PEPS

Politically exposed person or PEP is the term used for an individual who is or has in the past been entrusted with prominent public functions in a particular country. The principles issued by the Wolfsberg Group of leading international financial institutions give an indication of best banking practice guidance on these issues. These principles are applicable to both domestic and international PEPs.

The following examples serve as aids in defining PEPs:

- Heads of State, Heads of Government and cabinet ministers;
- influential functionaries in nationalised industries and government administration;
- senior judges;
- senior political party functionaries;
- senior and/or influential officials, functionaries and military leaders and people with similar functions in international or supranational organisations;
- members of ruling or royal families;
- senior and/or influential representatives of religious organisations (if these functions are connected to political, judicial, military or administrative responsibilities).

According to the Wolfsberg principles, families and closely associated persons of PEPs should also be given special attention by a bank. The term "families" includes close family members such as spouses, children, parents and siblings and may also include other blood relatives and relatives by marriage. The category of "closely associated persons" includes close business colleagues and personal advisers/consultants to the PEP as well as persons, who obviously benefit significantly from being close to such a person.

A bank should conduct proper due diligence on both a PEP and the persons acting on his or her behalf. Similarly, KYC principles should be applied without exception to PEPs, families of PEPs and closely associated persons to the PEP.
